November 2016

FOUNDATION NAMED "2016 OUTSTANDING PHILANTHROPIC ORGANIZATION"

On November 9, we were recognized by the Association of Fundraising Professionals (AFP) for outstanding philanthropic work in the state of Washington. Through our ever-growing partnerships between the public and private sectors, over $152,000 was awarded to 30 non-profit organizations in Skagit County.

While we were honored to receive this award, we view it as encouragement to continue the work necessary to provide positive change in Skagit County. We acknowledge that without the support of you, this recognition would not have been possible.

And so we humbly say, *thank you*.
